

Create and configure IBM cloud services

Creation of node-RED

Date	10 November 2022
Team ID	PNT2022TMID23696
Project Name	Project – IOT Based Real – time River Water Quality Monitoring and Control System
Maximum Marks	4 Marks

NODE RED

The screenshot shows the Kubernetes Dashboard interface. The left sidebar contains navigation links for Workloads, Service, Config and Storage, and other resources. The main area displays the 'Workloads' section, showing a 'Workload Status' card with two red circles indicating 'Failed 1' for both 'Daemon Sets' and 'Pods'. Below this, a table lists 'Daemon Sets' with columns for Name, Images, Labels, Pods, and Created. The table shows one entry: 'node-red' with 0/1 pods and a creation time of 8.36c00ds.ago.

Name	Images	Labels	Pods	Created
node-red	Show all	Show all	0 / 1	8.36c00ds.ago

The screenshot shows the 'mycluster-free' dashboard. The top bar indicates the cluster is 'Normal' and 'Expires in 29 days'. The left sidebar shows navigation links for Overview, Worker nodes, Worker pools, and DevOps. The main area displays a 'Node status' card showing '1 of 1' nodes in 'Normal' status. Below this, a 'Details' section provides information about the cluster, including Cluster ID, Version, Infrastructure, Zones, Created time, Resource group, and Image security enforcement. The 'Node health' section shows '1 total nodes' in a green bar.

Node status	Add-on status	Master status	Ingress status
1 of 1 Normal	0 of 0 Normal	Normal	Unknown

Cluster ID	Version	Infrastructure	Zones
cd8hp8oF8l93cdp85hfg	1.23.12_1546	Classic	Milan 01

Created	Resource group	Image security enforcement
20/10/2022, 15:32	Default	Enable
